

REMARKS

New Figures 2c, 2e and 8d and a new Declaration are filed herewith in response to the Examiner's objections.

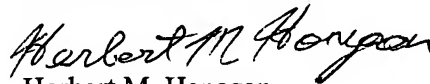

The Examiner has objected to claims 1-4 as being informal. Claims 1-4 have been amended to overcome the informalities. Accordingly reconsideration and withdrawal of this rejection is respectfully requested. Claims 8 and 11-25 have been cancelled without prejudice.

The Examiner has rejected claims 5-8 and 10 under 35 U.S.C. §102 as being anticipated by Fritz. Independent claim 5, upon which claims 6 and 7 depend, has been amended to state that the holding member contains a temperature sensing means. Nowhere in Fritz is there any suggestion, much less disclosure of a temperature sensing means in a holding member, therefore Fritz does not anticipate applicant's present claims. Accordingly reconsideration and withdrawal of this rejection is earnestly requested.

The Examiner has rejected claims 1-10 under 35 U.S.C. §102 as being anticipated by Wijnberg. Independent claims 1 and 5, upon which claims 2-4 and 6-10 depend as presently amended state that a temperature sensing means is contained within a holding member. There is no mention, much less disclosure in Wijnberg of a temperature sensing means contained within a holding member, therefore Wijnberg does not anticipate applicant's present claims. Accordingly reconsideration and withdrawal of this rejection is earnestly requested.

In view of the above amendments and remarks reconsideration and withdrawal of the rejections of Applicant's claims and an indication of allowance is respectfully requested.

Respectfully submitted,

Herbert M. Hanegan
